MANUFACTURED HOME NOTES

- County code Chapter 50 specifically covers Manufactured Homes and Mobile Homes
- County posts separate permit checklists for NEW vs USED mobile homes on its website
- Nahunta and Hoboken city mobile home permits carry a \$50 fee; county fees differ inside vs outside city limits

Georgia: installation must follow the state Rules for Manufactured Homes (O.C.G.A. Title 8-2, Art. 2) using state-licensed installers; an installation permit and insignia are required, and local permits/inspections apply.

Summary Checklist for New Manufactured Home Permits

Manufactured home shall be installed and set-up in accordance with GA State Fire Marshall's Office Section 120-3-7.

A minimum of 1 acre for each home is required.

- Step #1 Apply for septic tank permit.
Existing tank inspection fee is \$40.00, and you must uncover all 4 corners of tank lid. Apply for Septic/Well permits at the Planning & Building Office. If you have any questions concerning your septic/well permits, you will need to contact Environmental Services at 1-855-473-4374.
- Step #2 All new manufactured homes (MH) , A Form 500 and PT 41 is required to be issued permit. You will get these 2 forms from the Mobile Home Dealership. Assignment of or verification of a physical 911 address where MH will be set up. Fee for new address is \$25.00. Also, if you do not have a culvert pipe for your driveway, you will need to purchase one at the commissioner's office.
- Step #3 Licensed installer/mover must fax state license to Brantley County @ 912-462-5256 Ext 2 before issuance of any other permits. Installer/mover can request in writing, on installation permit, that owner of MH has authority from installer to purchase other permits. (\$600.00 each out of county, \$300.00 in county) All work must be done by licensed contractors.
Failure to apply for permits prior to moving MH will result in fees doubling
- Step #4 All electrical wiring under home shall be approved for direct burial or in approved conduit set forth by National Electrical Code. All above ground wiring shall be in approved conduit. All wiring includes service entrance, feeders, branch circuits, etc.
- Step #5 At least one two-way clean-out or other approved means shall be installed in the sanitary drain line before power will be connected.
